SMART STEP

Model #200600T Assmeby Instructions

Step 19: Retrieve Smart Choice Ladder and center Support Feet on top step. Secure feet using (8) 1" screws through hash marks on Support Feet (C).

Step 20: Attach Upper Rail (E) to Smart Choice Handrail (A) using Smart Connector (J) and (2) #8 x 1" screws.

Step 21: Pool Installation

Note: Two people are required for installation.

A total weight of approximately 100 lbs. is required to keep the step from floating once in place under water. With the assistance of another person, carefully place the step in the pool. Place two sealed bags of sand (not included) into the two ballast bags (M) and place over the ballast tray (D) to wiegh the step down. Walk the step back against the pool wall to prevent swim-behind hazards.

***Optional* Purchase (2) Anchors (#200888) to weigh down the Smart Step. Sand not inlcuded.**

All Finished!
