

INSTRUCTIONS

Each Kit Includes

- **Supper Zappit Shock (1 Pound: Quantity 2)**
 - Fast Dissolving
 - Kills Bacteria
 - Controls Algae
 - Destroys Organic Contaminants
- **Stain & Scale Preventer (1 Quart: Quantity 1)**
 - Prevents Metallic Stains
 - Prevents Rust and Scaling
 - Eliminates Brown or Green Water
 - Does Not Contain Phosphates
- **Algicide 30 (1 Quart: Quantity 1)**
 - No Foaming
 - No Staining or Discoloration
 - No Metals
 - Prevents Green, Black, & Mustard Algae

Instructions

The **Enjoy Opening & Closing Kit** treats up to 20,000 gallons of pool water. We highly recommend using two kits when your pool size exceeds 20,000 gallons*.

Before starting, make sure your pool pump is on and running to encourage optimal chemical distribution.

1. **Add the Algicil 30:** Slowly empty the contents of the bottle along the pool's edge to evenly distribute the contents into the pool.
2. **Add the Stain & Scale Preventer:** Slowly empty the contents of the bottle along the pool's edge to evenly distribute the contents into the pool. Wait 15 minutes before starting step 3.
3. **Add the Super Zappit Shock:** One bag at a time, mix the contents of 1 bag with water from your pool in a 5-gallon bucket, and then evenly disperse in your pool. Repeat this for each bag of Super Zappit.
4. **Allow to Mix:** Allow your pool pump to run for 12-24 hours to allow the chemicals to effectively mix.

At this point, you may begin your pool closing process or if you are opening your pool, you can begin testing and balancing your water.

* If you're unsure how many gallons are in your pool, please consult this reference guide to estimate the size of your swimming pool. Note: These are estimates.

Pool Volume Reference Chart

Above Ground Pools		Above Ground Pools		Inground Pools
