

MODERN LADDERS & RAILS SERIES

ARTISAN SERIES

The Artisan Series is a patent pending designer inspired rail line that provides an elegant custom look for any pool environment. They are the ideal choice for pool renovation projects.

FINISH WITH DURABILITY & STYLE

A variety of finish options are available which provide a higher level of protection to our marine grade stainless steel rails and ladders. Coatings are available in a variety of colors.

Polished stainless steel - 304 is standard, or marine grade (316L) is an option for a higher level of protection in extreme environments.

Powder Coating - a durable finish that is easy to maintain, corrosion and scratch resistant, and is available in a wide variety of colors.

SealedSteel® Salt Friendly** - a protective vinyl coating that completely encapsulates the steel, and performs well in salt pool and other harsh environments (not available with Artisan or Meridian Series).

Due to printing technology, actual colors may vary.

*Custom Order Colors

**SealedSteel cannot be used in spas and pools where the water temperature exceeds 100 degrees F.

ORDINARY TO EXTRAORDINARY

These rails are the ideal choice for pool renovation projects and new construction.
